Photography Composition Assignment 1

1. Go to the class folder and find the folder called “Composition_Assignment_01”.
2. Select four images to improve by cropping.
3. Save the images as “YourName_ImageName_Crop”.

So, if the file was called “Restaurant”, I would save it as, “Morland_Restaurant_Crop”.

4. Select two of the 6 compositional techniques from the list on the lesson guide for today. Your choices are:
 - Rule of Thirds or Golden Spiral
 - Leading Lines and Diagonals
 - Framing
 - Pattern and Repetition
 - Balance
 - Simplification
5. Capture AT LEAST 12 images for each of the techniques you selected. The more, the better!
6. Upload your images and evaluate them for strong composition. Select THREE images to demonstrate each technique and crop them as necessary to improve on your compositions.
7. Submit SIX images total to your completed work folder – make a new folder there called “YourName_Comp_01” for your final submitted images. Save the images as “YourName_CompositionTechnique_Number”. For example, if I selected Framing and Balance, the files would be named:
 - Morland_Framing_01
 - Morland_Framing_02
 - Morland_Framing_03

 - Morland_Balance_01
 - Morland_Balance_02
 - Morland_Balance_03
